

Maximizing alerts on Scotia® online

You can set-up different alerts in the Alerts tab under **Markets and Research** when logged on to Scotia online.

Alerts can help you stay informed of how your stocks or watchlists are performing or moving in the marketplace by sending you an email or mobile notification.

Market alerts

Get market trend alerts notifying you on the day's most active stocks, biggest gainers and losers, and other information from key indexes, including the **TSX/S&P Composite** and the **NASDAQ**. Market summary and economic reports sent to your email or mobile device inbox ensure you're always on top of the latest economic trends.

Watchlist alerts

Review the performance of your **Watchlist** stocks at the end of each day. Check the open, high, low, close, and volume of your stocks in one convenient email or text message.

Equity and ETF alerts

Get up to the minute notification if your stock reaches a pre-set threshold price, moves up or down by a chosen percentage, or hits a new 52 week high or low. Receive **alerts** if the volume of your stock exceeds its ten-day average by a selected percentage. Always be notified of **corporate actions** on your equities, like stock splits and dividend announcements.

Technical alerts

Add **custom** or **pre-set alerts** that will notify you when events of significance occur such as:

- New market insights found by scanning the Technical Event® results across a market
- New Technical Events® for one or more securities
- A price crossing a significant threshold, such as a support/resistance line, or a trailing stop level.

Stay ahead of the market – set up alerts by logging onto Scotia online today.
